

**My interests are:**

- Data Science
- Statistics
- NLP/LLM
- Computer Science

I love coding, looking for patterns, and visualizing data.

**General Skills****Programming**

R	(★★★★★)
Python	(★★★★★)
C++	(★★★★★*)
VBA	(★★★★★*)

**AI Ecosystem**

PyTorch (ML)	(★★★★★*)
Spacy (NLP)	(★★★★★)
Prodigy	(★★★★★*)
Ollama (LLM)	(★★★★★)
Hugging Face	(★★★★★*)

**Data visualization and exploration**

R (shiny, ggplot)	(★★★★★)
Python(matplotlib)	(★★★★★)
Gephi	(★★★★★)

**Languages**

English	(★★★★★)
Spanish (native)	(★★★★★)
Dutch (learning)	(★★★★*)

# Dr. Sofia Gil-Clavel

Actuarial, Computer, and Computational Social Scientist

**Strengths:** I am a transdisciplinary and long-term-oriented researcher with the passion to bring creative and novel solutions to the world.

## Work Experience

### 2024-Current: Researcher, Research Engineer, and Lab Manager at the Societal Analytics Lab

[Nov.2024 – Current] *VU Amsterdam, Amsterdam, Netherlands.*

As researcher, I **work on novel methodological research** applied to the use of AI in socio-ecological systems, e.g. risks and misinformation (Publications/ Scholarships and Grants). As research engineer, I **facilitate the creation of advanced computational resources**, while also maintaining them and facilitating their use by other researchers. As lab manager, I **run the lab** and its resources **together with the lab directors** (Wouter van Atteveldt and Kasper Welbers). As part of the Communication department, I supervise students (Supervision Experience) and co-ordinate and teach different bachelor and master courses (Teaching Experience).

 **Under my managing, the lab has accomplished the following:**

- The number of lab members increased 38%.
- We kicked-off the Linux computing server that runs AI specialized software (Ollama, Open Web-UI, and Whisper) ([link](#)). I am personally responsible of installing and maintaining the software. This software is freely available for all the researchers at the Faculty of Social Science, VU Amsterdam, that signed up to be members of the lab.
- We invested in and maintained tools and resources that facilitate researchers usage of big multimodal data and computational methods (AmCAT, Prodigy, and LIWC) ([link](#)).
- Every month, we have events aimed at improving researchers statistical and computational skills ([link](#)), such as talks and workshops. I am personally responsible for the design and organization of the R-Workshops ([link](#)).

### 2022-2024: Post Doctoral Fellow Human Adaptation to Climate Change

[Jul.2022 – Oct.2024] *TU Delft, Delft, Netherlands.*

**Retrieval and analysis of peer-reviewed articles' text to study humans' adaptation to climate change.** Specifically, I use Natural Language Processing, network visualization, and statistical analysis to study the socio-economic factors associated with adaptation to climate change.

 **I developed an active learning methodology to extract, visualize, and analyze text** from peer-reviewed articles. I submitted two articles for publication, which are available as working papers and collaborated on two articles that are also under peer-review. I developed and taught a general workshop on how to use Application Programming Interfaces to retrieve data. Lastly, I **supervise five bachelor students and co-supervise one PhD student and three master students.**

### 2018-2022: PhD Fellow Computational Social Science

[Sep.2018 – Jun.2022] *Max Planck Institute for Demographic Research. Rostock, Germany, & Faculty of Spatial Sciences, University of Groningen, Groningen, Netherlands.*

**My PhD projects relied on analyzing data retrieved using Facebook and Twitter Application Programming Interfaces through statistical and longitudinal methods and natural language processing.** My main dissertation projects focused on Europe, specifically on studying family ties, immigrants' cultural integration, and older people's use of information and communication technologies to maintain friendships.

I published 3 first-author articles and collaborated in 6 other publications. My work was selected for presentation in more than 10 conferences. I also developed and gave a workshop on how to use Application Programming Interfaces to retrieve data from Facebook and Twitter. I was elected for several years as PhD representative. Lastly, I started to supervise master students.

### 2017-2018: Head of the Demographic Analysis Department

[Aug.2017 – Aug.2018] National Population Council (CONAPO). Mexico City, Mexico.

**My work focused on creating computational tools to visualize and analyze data**, such as Mexican conciliation (1950-2015) and the Mexican projected population (2016-2050). I also performed demographic data analysis, including population, deaths, births, and migration.

I programmed and uploaded (Linux servers) the first version (2018) of the shiny app to visualize conciliation and projected Mexican data ([link](#)). I also developed the project “Estimation of the infant mortality rate in Mexico in 2015 at municipal level using numerical techniques.” Work presented at the Mexican Demographic Society (SOMEDE).

### 2007-2015: Other work experience

#### Research Analyst

[Aug.2014 – Aug.2015] Center of Demographic, Urban, and Environmental Studies (CEDUA) of el Colegio de México (COLMEX). Mexico City, Mexico.

Development of the R package “DemosR: Package for the Stochastic Population Forecast” (COLMEX internal use). Analysis and handling of big data for demographic research.

#### Student Assistant: Teacher in BSc degree

[Aug.2013 – Aug.2015] Faculty of Science, Universidad Nacional Autónoma de México (UNAM). Mexico City, Mexico.

I helped prepare the teaching material and taught and graded three different courses with around 50 students per course.

#### Mathematics Teacher

[Aug. 2007 – Jul. 2008] National Mathematics College (CONAMAT), Mexico.

I taught fundamental mathematics (arithmetic, geometry, algebra, and calculus) to people of different ages and educational levels.

## Education

### 2018-2023: Computational Social Science (PhD)

[Sep.2018–Aug. 2023]

Digital and Computational Demography Laboratory, Max Planck Institute for Demographic Research, Germany, & Faculty of Spatial Sciences, University of Groningen, Netherlands.

Supervisors: Prof. Dr. Emilio Zagheni & Prof. Dr. Clara H. Mulder

#### PhD thesis:

Gil-Clavel, Sofia. “**Studying Social Interactions Using Digital Trace Data: The Cases of Older Adults, Migrants, and Family Ties**” ([link](#)). University of Groningen, 2023.

#### Graduate-level education:

- IMPRS-PHDS [Sep.2019–Aug.2023]: International Max Planck Research School for Population, Health and Data Science, Germany.
- CAnD3 [May 2021–Jun.2022]: Consortium on Analytics for Data-Driven Decision-Making, McGill University, Canada.

## 2015-2017: Computer Science (MSc)

[Aug.2015–Aug. 2017]

*Center of Mathematics Research (CIMAT), Mexico.*

Specialization in Computing and Industrial Mathematics.

The thesis research used and optimized techniques for geospatial analysis, such as Autoregressive Spatial models.

Supervisor: Prof. Johan Van Horebeek

## 2009-2014: Actuarial Science (BSc)

[Aug.2009–Aug. 2014]

*National Autonomous University of Mexico (UNAM), Mexico.*

## Scholarships and Grants

[December 2025]

### Co-applicant

**Grant of 250,000 EUR to work on the project “Observatory for Political Texts, Images and MultimediA (OPTIMA)”.** Funder: Open Science Infrastructure. Political communication research often struggles with data accessibility, transparency, and reusability. This is due to copyright and privacy concerns, and because sharing data and code in a FAIR way is often a burden and an afterthought for the researcher. OPTIMA aims to advance open science by creating an innovative, collaborative infrastructure for securely storing, analyzing, enriching, and sharing multimedia data. More information [here](#).

[November 2025]

### Principal Investigator

**Grant of 7500 EUR to work on my project “Responsible use of Artificial Intelligence in government agencies”.** The project was selected by VU fonds campaign to seek sponsorship. **This is the first research project where I am Principal Investigator.** In this project, I aim to study how public servants use Artificial Intelligence in their daily work. In which situations do they use it? In which do they not? And how do they take the results into consideration? Based on this knowledge, I will develop an intervention in the form of a board game. This board game will empower policy makers to use Artificial Intelligence responsibly and critically. More information [here](#).

[August 2015]

### Main recipient

**Scholarship of 10,000EUR** from the Mexican National Council of Science and Technology (CONACyT) to study Computer Science at CIMAT.

[July 2013]

Main recipient

**Scholarship of 150 EUR from CIMAT** to participate in their “6<sup>th</sup> Summer School on Probability and Statistics”, and to work on a research project with Prof. Rogelio Ramos Quiroga, CIMAT.

## Teaching Experience

### University Teaching Qualification

[Feb. 2025 – Jun. 2025]

I followed the UTQ at VU Amsterdam. As my main UTQ projects, I **designed, coordinated, and taught** the R-workshop for academics ([link](#)) and the Social Media Analytics course (~80 bachelor students) ([link](#)).

### University Level Teaching

#### Social Media Analytics

[Every year between February and June. Starting in 2025.]

I **coordinate and help preparing all the material to teach students manual and automatic content analysis**. The course consists of around 80 students. It covers three periods, from P4

(February) to P6 (June). In P4 and P5 students learn how to apply a range of content analysis techniques (manual and using supervised learning). Next to self-study material students had 3 lectures and 6 computer practicals. For every computer practical students had to make an assignment in teams of 2. Finally, during Q6 the students applied what they learned on a 1-month project. All info [here](#).

#### Computational Analysis of Digital Communication

[Nov. 2025 – Dec. 2025]

**Teach automatic content analysis.** In this course, students learn how to use computational techniques to analyze communication by learning to speak the “language of data”. The course consisted of 15 master students from the master Artificial Intelligence and Governance. All info [here](#).

#### Student Assistant Teacher in BSc degree

[Aug.2013 – Aug.2015]

I helped prepare the material, and teaching and grading.

- *Calculus*. 20 students. El Colegio de México. [Aug.2014 – Aug.2015]
- *Statistics*. 50 students. UNAM. [Jan.2014 – Aug.2014]
- *Probability*. 100 students. UNAM. [Aug.2013 – Aug.2014]

#### Mathematics Teacher

[Aug. 2007 – Jul. 2008]

I taught fundamental mathematics to people of different ages.

National Mathematics College (CONAMAT), Mexico.

#### Workshops for academics

##### R for Social Scientists

[Every year starting in 2025.]

**I designed this course** to give social scientists all that is necessary to start using R in their everyday work. The course is designed for academics in different career stages (from PhD students to professors) and with different backgrounds. It does not matter if they are a qualitative researcher that has never used R, or a quantitative researcher that wants to learn new topics or move out of SPSS/STATA. **The course continues to receive very good ratings from the academics** that followed it. Furthermore, some departments at VU have requested that I teach it to their staff, to help speed-up the department transition to fully use R. To access and cite:

**Gil-Clavel, S.** (2025). R-Course: R for Social Scientists (Version 1.0).  
<https://doi.org/10.5281/zenodo.17184812>. (Original work published 2019)

#### Introduction to Data Analysis with R

[May 6<sup>th</sup>, 2024 - May 8<sup>th</sup>, 2024]

I fully prepared a **3-days course** that **aims to teach** students **all that is necessary to use R for coding, data management, and data visualization**. It is targeted to bachelor, master, and PhD students interested in learning R. No previous knowledge of R was required.

#### Workshops on Digital Data: Use, Retrieval, and Analysis

[Jan.2019 – Current]

I fully prepared a 3-hours workshop that aims to give a general overview on the use of digital data for population research, and how to use application programming interfaces to download digital data from diverse social media platforms. The course has been followed by bachelor, master, and doctoral students, as well as professors from different international institutions, and it has received very good reviews.

- Universidad Andina del Cusco, Peru. [Oct. 2024]
- Centro de Investigación en Matemáticas, Mexico. [Oct. 2023]
- El Colegio de México, Mexico ([link](#), [link](#)). [Sep. 2023 & Apr. 2022]
- Max Planck Institute for Demographic Research, Germany ([link](#)). [Oct. 2019]
- Instituto de Economía, Geografía y Demografía, Spain ([link](#)). [Jun. 2019]

## Supervision Experience

### PhD Students

- Thorid Wagenblast (2022–2024). “Social and Policy Tipping Elements in Transformational Climate Change Adaptation.” TU Delft. Netherlands. Main Supervisor: Prof. Tatiana Filatova. Advisor: Dr. Sofia Gil-Clavel.

### Master Students

- Yannek Lowitz (2025-current). “Digital Sovereignty vs. Gatekeeping Power: The Geopolitics of Europe's Financial Backbone.” VU Amsterdam. Netherlands. Main Supervisor: Dr. Sofia Gil-Clavel.
- Kaninik Baradi (2024). “Ex-ante Measurement of Procedural Justice in Climate Change Adaptation.” TU Delft. Netherlands. Main Supervisor: Prof. Amineh Ghorbani. Daily-Supervisor: Dr. Sofia Gil-Clavel. <https://repository.tudelft.nl/record/uuid:736728a9-4a3a-4587-97f2-d23554cc2b85>
- George Gittins (2024). “Extracting Institutional Grammar Norms from Questionnaire Data for Agent-Based Models.” TU Delft. Netherlands. Main Supervisor: Prof. Amineh Ghorbani. Daily-Supervisor: Dr. Sofia Gil-Clavel. <https://repository.tudelft.nl/record/uuid:a0dcc62c-b005-44be-9427-aff94d84e336>
- Camila Montiel González (2023–2024). “Facebook versus encuestas de hogares: oportunidades y límites de los datos de Facebook para el estudio de la migración internacional en América Latina.” Universidad de la República, Facultad de Ciencias Sociales. Uruguay. Main Supervisor: Prof. Victoria Prieto Rosas. Co-Supervisor: Dr. Sofia Gil-Clavel. <https://hdl.handle.net/20.500.12008/43352>

Note: The student graduated with honors.

### Bachelor Students

- Main supervisor of 5 bachelor students (2024). Co-supervisor: Prof. Trivik Verma. Project name “From intention to adoption of green energy: Demographic, Cultural, and Economic differences in the EU.” You can also check one of these theses [here](#).

## Professional Activities

### Invited Speaker

**Invited as discussant** at the panel “FAIR Data, Interoperability, and Vocabularies” of *The Future of Computational Democracy Research* ([link](#)). September 2025.

**Invited as an expert in the use of Social Media Data** to contribute to the update of TU Delft “Guidelines for Research Data/Software Management.” Organized by Asya Kochkurova, TU Delft library Project Manager. February 2024.

**Invited speaker** at “Bridging the Gap: Integrating Historical Knowledge and Complex Human-Environmental System Modelling,” at the Max Planck Institute of Geo-anthropology, to present “Use of Natural Language Processing and Networks to study individuals’ factors of Climate Change Adaptation” ([link](#)). Germany. December 2023.

**Invited speaker** at “Primer Seminario Sobre Gestión y Generación de Datos Sociodemográficos,” Universidad Autónoma del Estado de México, to present “Estudio de las interacciones sociales mediante datos digitales: Los Casos de las Personas Adultas Mayores y los Inmigrantes.” Mexico. October 2023.

**Invited speaker** at Centro de Investigación en Matemáticas (CIMAT) to present “Estudio de las interacciones sociales mediante datos digitales: Los Casos de las Personas Adultas Mayores y los Inmigrantes.” ([link](#)) Mexico. October 2023.

**Invited to give a workshop** at Centro de Investigación en Matemáticas (CIMAT): *Datos Digitales: uso, descarga y análisis*. October 2023.

**Invited to give a workshop** at El Colegio de Mexico as part of the permanent seminar Migración Desigualdad y Políticas Públicas. “Taller de Datos Digitales: Uso, Descarga, y Análisis” ([link](#)). Mexico. September 2023.

**Invited to give a guest lecture** at the Department of Methodology and Statistics of Tilburg University to present “Big Data as a Data Source for Research: The Case of Facebook Data.” Netherlands. March 2023.

**Invited speaker** at the Permanent Seminar ‘Aplicaciones de ciencia de datos en las ciencias sociales y las humanidades’ of El Colegio de México. Presentation: “La asociación entre las políticas de integración cívica y de ciudadanía con el uso de la lengua de destino de los inmigrantes de la UE-15: Uso de datos de Twitter para analizar la adquisición de idiomas” (You can find the video [here](#)). November 2022.

**Invited to give a workshop** at El Colegio de Mexico “V Coloquio Internacional Estudiantil en Población, Ciudad y Ambiente”: *Uso de APIs para la descarga de datos* ([link](#)). April 2022.

**Invited as discussant** at the panel “Machine learning in the social sciences” of the *MigrantLife Symposium* ([link](#)). March 2022.

**Invited as discussant** at the panel “Digital Traces for demographic knowledge” of the *Population Studies Association of Argentina* (AEPA) ([link](#)). October 2021.

**Invited as discussant** to the roundtable Demographic Research with Web and Social Media Data at the *Latin American Population Association*, organized by Diego Alburez-Gutierrez. You can find the video [here](#).

## Organized Events

**Event** “Ethics of AI and Lab's tools introduction” for the Societal Analytics Lab, VU Amsterdam ([link](#)). Invited speaker: Dr. Katleen Gabriels. Amsterdam, Netherlands. May 2025.

**Session** “Uso de datos digitales para el estudio de la migración latinoamericana” at “Segundo Seminario Internacional: Gestión y análisis de información sobre movilidad y migración 2024”, Universidad Autónoma del Estado de México. Invited speakers: PhD Candidate Abigail Tun Mendicuti, PhD Candidate Camila Montiel, and Ms. Tania Varona Molina. Mexico. September 2024.

**Session** “Uso de Datos Digitales en el Estudio de la Movilidad y la Migración Humana” at “Primer Seminario Sobre Gestión y Generación de Datos Sociodemográficos”, Universidad Autónoma del Estado de México. Invited speakers: Prof. V. Prieto Rosas, Prof. F. Rowe, Dr. D. Perrotta, and PhD Candidate C. Coimbra Vieira. Mexico. October 2023.

**Workshop** on “Using the Facebook Application Programming Interface” at the Max Planck Institute for Demographic Research ([link](#)). October 2019.

**Workshop** at the ICWSM 2019: *Demographic Research with Web and Social Media Data* ([link](#)). June 2019.

**Workshop** at IUSSP Digital Demography in the Era of Big Data Pre-Workshop: *Demography Today Training* ([link](#)). June 2019.

## Other Professional Activities

- Co-founder of the Film Club at the Societal Analytics Lab, VU Amsterdam. [Jun.2025–Current]
- Founder of the Reading Club at the Political Communication Group, VU Amsterdam. [Nov.2024–Current]
- Chair and co-discussant at session “Policy Language Analysis” of COMPTEXT24 conference ([link](#)). May 2024.
- Host Lunch Lecture on "Sustainable and Ethical Impacts of AI" on April 30th, 2024, as part of the Green Week event organized by TU Delft.
- Founder of the Reading Club at the SC3 Group, TU Delft. [Apr.2023–Oct.2024]
- Co-launched Peer-Review Workshop, IMPRS-PHDS. [Aug.2020–Apr.2022]
- Elected PhD Core Representative, IMPRS-PHDS. [Nov.2019–Jun.2022]
- Elected PhD External Representative, MPIDR. [Jun.2020–Jun.2021]
- Founder of the Cine Club, MPIDR. [Nov. 2018 – Jun. 2022]
